Dear AOIT Junior:

Research suggests that internships can produce substantial, long term improvements to young people's ability to earn money and make successful transitions into adulthood. Internships introduce students to the habits and value of compensated work, while making connections between academic learning and its real world application.

Your upcoming internship is one of the highlights of the AOIT program at Apex High School. This package provides you with the tools to make the most of the internship as well as understand your responsibilities. Enclosed you will find important information that will be helpful to you in your internship. Please read the material and utilize the suggestions to make the most of your internship experience. Much of the material must be turned in as part of the internship credit you will receive.

While the school, the program director and the Business Advisory Board assist you in finding an internship, it is your responsibility to find an internship, interview and complete it.

The positive impression you make during your internship will be helpful to you in the future when you are seeking a reference or a permanent position. Your internship will give you a chance to demonstrate your competence and initiative; we hope you will use it as an opportunity to learn and grow. Recognize that through your job performance you are representing Apex High School and the AOIT program. We hope this experience will ensure that your employer will warmly receive future interns.

Sincerely,

Teia Robinson  
AOIT Director

In your journal you can reflect on successes or problems, as well as anxieties or other feelings you have about your internship. You may record your responses to difficulties that come up during the course of your internship. In addition, you may record your personal reactions to teachers, internship coordinators, supervisors or co-workers or groups you take part in. You may use the journal to record any problems you are having that interfere with your learning experience.

**Post #5**

**Date(s):** 7/19/13 - 7/22/13

**Activities:** Edit and Crop Videos, Work on Intranet

**Technical Information:** VideoPad, Adobe Dreamweaver CS4, Canon Video Camera

**Reflection:** As The Hamner Institutes continually is expanding their partnerships and relationships with other companies, one major connection is with China. This week, the majority of my time was devoted to cropping and editing videos of speakers from China and The Hamner at important events. Even though most of the videos were in another language, it was interesting to see the presentations. To edit the videos, I used software called VideoPad, which was rather easy to pick up and learn. The only frustrating part about the program is how long it takes to make the video into a movie and how long it takes to upload a video file. Other than those two issues, VideoPad is great editing software to use!

When I wasn't working on editing China presentation videos, I would work on the intranet. In all, I have 13 pages to make, with many subpages under each! It's been hard to get people to meet with me about their webpages, but it's coming along! So far, I have completed 3 of the intranet sites and have 10 pages left to finish before I leave! Fortunately, it doesn't take me that long to make a site; typically, I only need one day to complete one of the 13 webpages.

I believe my main contribution to The Hamner is tying up loose ends to projects that need to be completed. For example, many of the posters that I have worked on are now completed and ready to be printed. Also, working on these videos from the China presentations probably wouldn't have been done quickly if I hadn't taken on the project! Overall, I'm here to learn and experience what work life is like and have learned so many new skills along the way!
